

# UNITING PEOPLE TO PROTECT THE PLANET

EARTH HOUR: SATURDAY 2012, 31ST MARCH, 830-930PM

60+  
EARTH HOUR

Earth Hour seeks your support...

Solar Lamps help over 125 million people living in India to live and work freely

Support Earth Hour

**Earth Day** came into existence more than forty years ago. Realizing the enormity of the responsibility we as its custodians need to put more efforts towards its upkeep and saving it from the brink of disaster for it is us who has wrecked havoc on it. Planet Earth is screaming for more consciousness and efforts from us all across. Reports say that the first Earth Day had twenty million supporters who were equivocal about their concern about the well being of our Planet. Rising Concerns in the numerous areas have demanded our conscious efforts for making a change. Statistical data state that more crises have arisen than all the strife's of the world. Earth Day urges us to inculcate good habits as environmental safeguards.

**Earth hour** is an extension of the same. SAI International School joins the force from more than 5200 cities from 135 countries worldwide as we appeal to you to be a part of a global cause for protecting the planet. We join hands with hundreds of millions of people from all walks of life to support the largest environmental event in history not only to prove our solidarity with the crusaders and pledge our continuous support towards tangible solutions for environmental change but being the agents of the Change we desire to see.

We have immense belief in the strength of the message which will usher more consciousness towards saving the environment. We want to join hands in being active participants in saving the planet which we fondly address as our mother.

The earth hour seeks your support, Dear Parents. We request you to please fore go the comforts and switch off the electricity for an hour voluntarily. As an added measure we can ask you to be conscious about using power as power is generated from Fossil fuels. We would request you for consciously switching over towards more eco friendly gadgets and devices.

Earth Hour is our effort towards a great future. Let's make a change together.
