

# Chairman's Cup Debate

SAI INTERNATIONAL SCHOOL, BHUBANESWAR

Initiating the ideal training grounds to nurture the skills of proper presentation of ideas chronologically complemented by apt body language was just about one of the intended areas that the Chairman's Cup Debate sought to enhance in the students of the secondary and senior secondary.

Organized for the second successive time the competition invited a large number of participation. Often seen as fruitful training grounds, debates help children in presenting relevant thoughts with purposeful deliberations. Debating as an art always benefits the young orators with building perfection in research, critical thinking alongside gaining confidence of public speaking. Helping students to add finesse in the fine art of persuasion, research indicates the positive influence of debate in enhancement of grades in the learners.

The participants kept the audience enjoying the process of hearing to a wide variety of thoughts and the inflamed passionate exchanges of words to spice the rebuttals. The divergence and the convergence of ideas led to a perfect amalgamation of analytical communicative processes.

In 2012 the seniors deliberated on the topic India Shining- Myth or Reality while the juniors put forth their ideas on Examinations- Boon or Bane. The champions of the cup for the senior group were Vishal Aditya Sahoo and Vikram Aditya Sahoo with Gaurav Kumar Aich and Sarthak Panda as the junior champions.

This year's champions Suvendu Samal and Adhish Alok Mohanty convincingly lifted the cup debating their way to success on "Culture to progress- Is it the road ahead?" while Priya Tekriwal and Ishani Mishra with "Is technology hindering creativity?" were declared as the champions of the junior group.

The Chairman's Debate Cup is a reflection of our belief that schools should be ideal training grounds for the youth with effective communication helping evolve ideal solutions to resolve differences.
