

CHILDREN BEAT THE HEAT AT THE SUMMER FIESTA OF SAI INTERNATIONAL SCHOOL

In midst of sweltering heat, rising temperature, refreshing 'nimbu pani' and cool ice creams, SAI International School organized the third "Summer fiesta 2013- It's time to play, learn, imagine, create, discover and make new friends!" from the 2nd to 12th May in the school campus to make the summer holidays more enthralling, exciting and creative for children.

An enthusiastic group of almost 80 children pushed the gates of SAI International School on the first day of the camp at 08:00 hours. The hustle bustle of the children was contagious and the entire school campus was revering in the joie-de-vivre of it. The group was divided into two sub groups, where Group A was for children of classes 1 to 4 and Group B was for classes 5 to 8. A number of fun, innovative and challenging activities were organized which included Clay Art like pottery and sculpture making, Wall climbing, Swimming, Dramatics, Music (vocal & instrumental), Modern dance, Aerobics, Horse riding, Communication Skills, Robotics etc. The kids could choose from any three activities for this 10 day camp of unlimited masti that was conducted under the expert guidance of trainers.

The valedictory ceremony of the summer fiesta took place on 12th May where the parents were invited to witness all that the children have learnt and done in the camp. The sculptures of clay were flaunted for the parents to see the work of craft that has been beautifully and aesthetically done by the kids. A skit was presented by the dramatics group while a performance was displayed by both the aerobics and musical groups.

SAI International School understands that summers are long and so are the summer vacations. We therefore arranged to give the kids a platform to indulge in the choicest activities of their liking giving them a break from the school curriculum at the same time fortifying their creativity and talents for a more fruitful and productive summer vacation. Round the year we concentrate on what the children will be tomorrow but summer camp for what they are today and the smiles on the faces of these children truly made the summers invigorating for us too.
